TO: WORKFORCE DEVELOPMENT COMMUNITY

SUBJECT: JTA SYSTEM VERSION 4.45.0 RELEASE

The purpose of this information notice is to inform you that the Workforce Services Division (WSD) will release a Job Training Automation (JTA) System Version 4.45.0 on the weekend of October 17, 2008. The JTA system software will be available beginning Monday, October 20, 2008.

This system release is being initiated to address a variety of enhancements and/or corrective adjustments. Significant changes included in this release are: (1) Update the Document of Eligibility (DOE) screen; and (2) Add numbers to the fields on the application short form; and (3) Modify the enrollment activity to exclude youth clients from the DOE requirement. Below is a description of all of the changes in the system release.

WIA System - <u>Programs Modified</u>

EDOE – Enter Documentation of Eligibility; LDOE – Load Document of Eligibility; LWID - Load WiA Data; and XWiD – Extract WIA Data; (Log # 6404, 6406)

This modification adds the US Passport Card to the list of eligible documents under List A of Section F (US Work Authorization) of the DOE. Other load and extract program adjustments were made to accommodate the change. Also, the LDOE program was corrected where an incorrect incomplete error message was displayed.

EWIE – Enter WIA Enrollment; LWIA – Load WIA Activity (Log # 6409)

This program change modifies the edit check for the enrollment so the check does not affect youth records and impacts only adult and dislocated worker records initiated on and after July 1, 2008 for local learning labs. The EDOE is an optional activity for non local learning labs. In addition, the edit was enhanced to not check for a DOE record when the grant group for youth is 50, 60, and 62.

EWIR – Enter WIA Registration; ESAF – Enter Short Application Form (Log #6400, 6405, 6408)

This change adds numbers to the data fields on the short application form to be consistent with the numbering on the long application form. This programming change also modifies an error message when attempting to delete an application record to reflect that a DOE may exist and needs to be deleted before attempting to delete the application.

In addition, EWIR programming was adjusted to address an issue that was preventing a second application record from being generated after the client was exited if the client was a youth previously and moved forward as an adult only.

ESSN – Enter Social Security Number (Log #6412)

A recent change modified the primary key of the case notes table to the social security number (ssn). This programming change adjusts the ESSN screen to change the ssn in the case_notes table as well.

EWGS – Enter WIA Grant Specific; LWGS – Load WIA Grant Specific; LWID – Load WIA Data; XWID – Extract WIA Data (Log #6403)

This change modifies the programming for the grant specific screen to add a Parolee Number line item for Grant Code 195. Also, the edit check for the Gang Status line was changed to only be required when using Grant Codes 415 and 417. Load and extract programs were modified to accommodate this change.

XWID – Extract WIA Data (Log #6410)

The XWID programming was adjusted to allow an extract file to be created and transferred within the current month. For records that soft exit, a programming change sets the date to the current date when the end of the reporting period is greater than the current date.

LWIR – Load WIA Registration (Log #6411)

This programming change is to fix the LWIR to reset global so subsequent records are not marked incomplete after the first incomplete record is identified.

Data Scripts

  ➢ s4450psprt.sql – Sets new bd_passport_card field on doc_eligy to "2" for existing records.
  ➢ s4450ver.sql – Updates version.

Database Changes

- ➢ Add Fields:
  - doc_eligy (bd_passport_card)
  - wia_ipd_doc_eligy (bd_passport_card)
  - wia_grnt_spec (parolee_num)
  - wia_ipd_grnt_spec (parolee_num)

Schema Scripts

Changes were made to the following programs to make the programs compatible with the GCC 4 compiler. The changes were completed October 1, 2008.

- ➢ jtalib; jtaincl; sdalib; sdaincl; rbps; p12; p12e; epsw; xwpd; pwfs; pwpr; pwrf; pwif

Note To Timeshare JTA System Users — This release will be installed over the weekend. Please do not access your system from Friday, October 17, 2008 at 5:00 pm through Monday, October 20, 2008 at 8:00 am.

Note To Standalone JTA System Users — The release files will be available on Wednesday, October 22, 2008 on the FTP site at endor.jta.edd.ca.gov and on the timeshare server at jta.cahwnet.gov.

Should you have any questions regarding this JTA system release, please call the JTA Help Desk at (916) 653-0202.

/S/ BOB HERMSMEIER
    Chief
    Workforce Services Division
